

Upcoming Funding Opportunities						 Michael Smith Foundation for Health Research
Funding Agency	Description	Length of funding (years)	Total Funding	Registration/Letter of Intent due	Full Application due	<a href="#">Web site</a>
Alliance for Lupus Research: New ALR Grant: Functional Genomics and Molecular Genetic Pathways in SLE <b>new Dec.'08</b>	Applications submitted should focus on two principal areas: (1) functional validation to determine which candidate genes/variants identified in human lupus have an authentic role in the disease and (2) detailed elucidation of the molecular pathways modulated by these candidate genes/variants identified in human lupus.	2	\$ 350,000	Not specified	16-Feb-09	<a href="#">Web Link</a>
American Association for the Study of Liver Diseases (AASLD):Clinical and Translational Research Awards	The AASLD Clinical and Translational Research Award is intended to foster career development for individuals performing clinical and/or translational research in a liver-related area and who have shown commitment to excellence at an early stage of their research study.	2	\$ 150,000	Not specified	13-Feb-09	<a href="#">Web Link</a>
Alcoholic Beverage Medical Research Foundation (ABMRF)	The Alcoholic Beverage Medical Research Foundation (ABMRF) is a nonprofit independent research organization that provides support for scientific studies on the use and prevention of misuse of alcoholic beverages. The foundation provides funds for interdisciplinary research in the biological, medical, epidemiological, behavioral, and social sciences in this field. The mission of the ABMRF grant program is to energize the field by helping researchers begin their careers and position them to attract greater funding from other sources with the track record resulting from an ABMRF grant. Through its research grant program, the foundation supports innovative studies conducted by qualified researchers at academic and scientific institutions in Canada and the United States.	2	\$ 100,000	Not specified	1-Feb and 1-Sept on annual basis	<a href="#">Web Link</a>
American Foundation for Suicide Prevention (AFSP): Six types of Research Grants	AFSP research grants support studies that aim to increase understanding of the causes of suicide and factors related to suicide risk, or to test treatments and other interventions designed to prevent suicide. Investigators from all academic disciplines are eligible to apply, and both basic science and applied research projects will be considered, providing the study has an essential focus on suicide or suicide prevention.	2	\$ 100,000	Not specified	15-Dec and 15-June on annual basis	<a href="#">Web Link</a>
Arthritis Foundation: Established Investigator Awards	The purpose of this grant is to broaden the base of inquiry in fundamental biomedical science, clinical research or behavioral research with relevance to rheumatic disease by encouraging applications for research proposals that involve an especially high degree of innovation and novelty or represent a special opportunity to address unique and relevant research questions.	2	\$200,000	Not specified	6-Feb-09	<a href="#">Web Link</a>

Arthritis Health Professions Association: RESEARCH GRANT ANNOUNCEMENT	Seed money to assist arthritis health professionals (members of AHPA) to improve their ability to compete for funds from voluntary and government funding agencies. This category of funding is intended to support the development of a research protocol.	1	\$ 5,000	Not specified	13 -June on an annual basis	<a href="#">Web Link</a>
Association for International Cancer Research (AICR):	AICR awards grants to support fundamental or translational research into the causes, mechanisms, diagnosis, treatment and prevention of cancer. We do not support clinical research. We will consider applications that include some clinical research in a project which is mostly basic or translational. We accept applications from non-profit research institutions anywhere in the world.	3	Not specified	Not required	2 annual deadlines: 31-Oct-08 and 24-April-09	<a href="#">Web Link</a>
Associated Medical Services (AMS): Hannah Development Grants	AMS Hannah Development Grants are intended to support small budget proposals, consistent with its mandate and interests in the history of medicine and health care. Proposals are expected to advance an aspect of medical history that could have benefits for the broader community of practitioners in the field.	1	\$ 10,000	Not specified	1-Mar-09 and 15-Sept-09	<a href="#">Web Link</a>
Autism Speaks (AS): Request for Applications: Basic & Clinical Research	Autism Speaks invites grant applications in all areas of basic and clinical research that will advance its biomedical and behavioral research mission, including but not limited to: human behavior (language, communication, social interaction) neurosciences (anatomy, pathology, development, imaging, cognition), human genetics/genomics, immunology, endocrinology, molecular and cellular mechanisms; and studies employing model organisms.	3	\$ 450,000	16-Jan-09	25-Mar-09	<a href="#">Web Link</a>
Banting Research Foundation	The Banting Research Foundation will support the work of young Canadian Scientists to initiate their research program with an annual grant of up to \$20,000	1	\$ 20,000	Not specified	March 15th of any year	<a href="#">Web Link</a>
BC Clean Air Research (BC CLEAR) Fund	All basic and applied research projects related to air quality management issues within British Columbia are eligible for support from the BC CLEAR Fund. Specifically, the Fund supports research relevant to BC that helps further understanding of the nature of air quality, the physical processes involved (atmospheric, emissions, transformations), their effects on the environment and humans, and how they are effectively managed.	Not specified	\$ 25,000	Anytime	Upon Invitation	<a href="#">Web Link</a>
BC Mental Health and Addictions Research Network-Seed Grants	The mission of the BC Mental Health and Addictions Research Network is to contribute to the excellence of mental health and addictions research in British Columbia by strengthening relationships among researchers across disciplines and across academic and health services organizations. The aim is to build research capacity and generate research that will inform policy and practice in the field of mental health and addictions.	Not specified	\$ 7,500	Not required	1-Apr-09	<a href="#">Web Link</a>

BC Occupational and Environmental Health Research Network- Networking Facilitation Fund Grant	The BC Environmental and Occupational Health Research Network provides funding for networking facilitation for its members to a maximum of \$2,500. This fund is to assist BCEOHRN members to network in a variety of ways, including, but not limited to bringing together BCEOHRN members for the preparation of research grant applications to national or international granting agencies, relevant to environmental and occupational health research themes. Costs may include travel, teleconferencing/videoconferencing, facilitation, etc.	Not specified	\$ 2,500	Not required	31-Mar-09	<a href="#">Web Link</a>
Burroughs Welcome Fund: Institutional Program Unifying Population and Laboratory Based Sciences	The award will support the training of researchers between existing concentrations of research strength in population approaches to human health and in basic biological sciences. The goal is to establish training programs by partnering researchers working in schools of medicine and schools (or academic divisions) of public health.	5	\$ 500,000	2-Mar-09	15-May-09	<a href="#">Web Link</a>
Burroughs Welcome Fund: Clinical Scientist Awards in Translational Research	The Fund's Clinical Scientist Awards in Translational Research are designed to foster the productivity of independent physician-scientists at the mid-career level who will strengthen translational research in academic health centers, both through their own studies as well as their mentoring of the next generation of physician-scientist trainees.	5	\$ 750,000	Not specified	1-Oct-09	<a href="#">Web Link</a>
Canadian Anesthesiologists' Society: Research Grants, Career Scientist and Residents' Awards Program	The research for which support is sought must be clearly relevant to the field(s) of anesthesia, perioperative medicine, and pain mechanisms and/or pain therapy. The applicant seeking such support must be an Active or Associate member, in good standing, of the Canadian Anesthesiologists' Society.	1	\$10,000 to \$30,000, depending on grant	Not specified	9-Jan-09	<a href="#">Web Link</a>
Canadian Association of Gastroenterology (CAG) : Operating Grants new Dec.'08	The following awards are available in this competition: Two, 2-year Olympus/CAG/CIHR Endoscopic Research Operating Grants; One, 2-year AstraZeneca/CAG/CIHR Upper Gastrointestinal Operating Grant; One, 2-year Shire/CAG/CIHR IBD Operating Grant	2	\$ 90,000	Not specified	15-Oct-09	<a href="#">Web Link</a>
Canadian Association of Gastroenterology (CAG): Resident Research Grants new Dec. '08	The Canadian Association of Gastroenterology, in partnership with Procter & Gamble, is pleased to announce the availability of one Resident Research Training Grant. These grants are designed to encourage research during clinical training and provide a foundation for research activities after gastroenterology training has been completed.	1	\$ 5,000	Not specified	31-Jan-09	<a href="#">Web Link</a>
Canadian Association of Gastroenterology (CAG) Workshops	The intent of this program is to provide a grant of up to \$5,000, which is to be used to promote the attendance of CAG trainees (basic and/or clinical) at national or international conferences. The award can be used to offset costs incurred in attending the conference such as registration, travel, accommodation and meals. Payment of honorarium is not permitted. Eligible CAG trainees are those whose abstract has been accepted for presentation.	Not specified	\$ 5,000	Not required	March 1st and September 1st annually	<a href="#">Web Link</a>

Canadian Breast Cancer Research Alliance: Operating Grants	The CBCRA operating grants provide research support to individuals affiliated with Canadian universities or other recognized Canadian institutions.	5	varies with application	1-Feb-09	1-Mar-09	<a href="#">Web Link</a>
Canadian Celiac Association: J.A. Campbell Research Award	The J. A. Campbell Research Award is a grant offered by the Canadian Celiac Association for research projects within Canada that are related to celiac disease and/or dermatitis herpetiformis.	1	\$ 25,000	Not specified	11-Jan-09	<a href="#">Web Link</a>
Canadian Celiac Association: J.A. Campbell Young Investigator Award	The J.A. Campbell Young Investigator Award for Research in Celiac Disease and Dermatitis Herpetiformis was established to encourage research by students and those recently completing studies.	1	\$ 5,000	Not specified	11-Jan-09	<a href="#">Web Link</a>
Canadian Cystic Fibrosis Foundation- Conference Grants	Grants to support small conferences that focus on subjects of direct relevance to cystic fibrosis. These grants typically supplement other funding sources.	Not specified	Not specified	Not required	Application by letter at any time	<a href="#">Web Link</a>
Canadian Cystic Fibrosis Foundation (CCFF): Clinical Project grants	Clinical Project grants provide a mechanism whereby the most important ideas for clinical studies can be forged into viable protocols, and strategies of urgent clinical relevance can be pursued.	Not specified	Not specified	Not required	Application by letter at any time	<a href="#">Web Link</a>
Canadian Cystic Fibrosis Foundation- Inter-clinic exchanges	Grants to assist the exchange of special expertise between larger, university-based CF clinics and smaller, more remote clinics. Requests of this type will involve fewer individuals than a medical/scientific conference	Not specified	Not specified	Not required	Not specified	<a href="#">Web Link</a>
Canadian Foundation for Aids Research (CANFAR): Research Grants	CANFAR grants are awarded on an annual basis. CANFAR awards research grants in the basic sciences, clinical, epidemiological and psycho-social areas related to: fundamental and applied research; education and prevention; psycho-social; community research; and care.	1	\$25,000- \$80,000	Not specified	15-Feb-09	<a href="#">Web Link</a>
Canadian Institutes of Health Research: Operating Grant: Mobility in Aging <b>new Dec.'08</b>	The Physiotherapy Foundation of Canada and the CIHR Institute of Aging are pleased to relaunch their joint Research Grants Program in Mobility in Aging. The grant aims to encourage new investigators to pursue physiotherapy-related research that addresses knowledge or knowledge to action gaps within the range of intrinsic and extrinsic challenges (from biological to environmental) associated with mobility of older Canadians.	1	\$ 5,000	Not specified	13-Feb-09	<a href="#">Web Link</a>
Canadian Institutes of Health Research: Research on Aging (USA-Canada) (2008-2009)	The Institute of Aging of the Canadian Institutes of Health Research and the National Institute on Aging of the National Institutes of Health recognize a continuing and expanding need to train new researchers in aging research. Provide multidisciplinary research team environments for training researchers in the field of aging; build a cooperative spirit and strong relationship between CIHR-IA and NIH-NIA and its research communities; promote research on aging in areas of mutual interest and benefit nationally and internationally.	3	\$ 175,000	Not specified	8-Apr-09	<a href="#">Web Link</a>

Canadian Institutes of Health Research: Operating Grant: 2008-2009	The CIHR Operating Grant Program (OGP) provides operating funds to support research proposals in all areas of health research according to internationally accepted standards of scientific excellence, in the creation of new knowledge and its translation into improved health for Canadians, more effective health services and products and a strengthened Canadian health care system.	5	Not specified	2-Feb-09	2-Mar-09	<a href="#">Web Link</a>
Canadian Institutes of Health Research: Master's Award: Spring 2009 Priority Announcement (Specific Research Areas)	The specific objective of the Master's Award Priority Announcement (Specific Research Areas) is to offer additional sources of funding for highly rated applications that are relevant to specific CIHR research priority areas and mandates.	1	\$ 175,000	Not specified	2-Feb-09	<a href="#">Web Link</a>
Canadian Institutes of Health Research: Other: Health Professional Student (2008-2009)	The purpose of this program is to further strengthen clinical research by providing research training to health professionals and strengthen talent development. It is expected that this targeted investment will lead to the development of the next generation of clinician-researchers.	13 weeks	\$ 5,961	Not specified	15-Feb-09	<a href="#">Web Link</a>
Canadian Institutes of Health Research: Advancing the Science to Reduce Tobacco Abuse and Nicotine Addiction Initiative - Researcher Travel Grants	Researchers and research end-users benefit greatly from opportunities to learn about current research and to work together. For this reason, the CTCRI's Workshop and Learning Opportunity Grants support workshops, meetings and events which focus on building research capacity by bringing together individuals from different disciplines and sectors. Strong preference will be given to projects focusing on regions or populations in which there has been a historic lack of capacity for research.	N/A	\$ 15,000	Not required	90 days prior to meeting	<a href="#">Web Link</a>
Canadian Institutes of Health Research: CIHR President's Fund	CIHR uses the President's Fund to provide grants that are used to support organizations and initiatives whose goal is consistent with CIHR's vision, mandate and strategic directions; provide financial assistance for conferences, workshops, seminars, education programs and other research related events that are hosted by research, knowledge translation or educational organizations.	Not specified	Not specified	Not specified	Not specified	<a href="#">Web Link</a>
Canadian Institutes of Health Research (CIHR): Operating Grants - CIHR Operating Grant Program (OGP)	The OGP provides operating funds to support research proposals in all areas of health research. The OGP follows a basic unstructured format, in that there are no specific requirements in relation to team size or composition; and no specific requirements or restrictions on the specific research activities to be undertaken, with the exception that randomized controlled trials are not funded through this program.	2-5 years	Not specified	2-Feb-09	2-Mar-09	<a href="#">Web Link</a>

Canadian Institutes of Health Research (CIHR): Randomized Controlled Trials: Mentoring (2008-2009) new Dec.'08	The objective of this initiative is to develop future leaders in trials research who can direct the conception, design and implementation of randomized controlled trials. The goals will be realized by a mentoring program in which investigators will learn how to initiate and conduct high quality randomized controlled trials (RCTs) from experienced mentors in highly active trial centres.	2	\$ 160,000	15-Jan-09	16-Feb-09	<a href="#">Web Link</a>
Canadian Institutes of Health Research: Randomized Controlled Trials: 2008-2009 new Dec.'08	CIHR recognizes the importance of randomized controlled trials as a tool to provide high quality evidence on the efficacy and effectiveness of interventions in health and health services. Relevant research areas include, but are not limited to the following types of interventions: Behavioral, Knowledge Translation, Complementary and Alternative Healthcare, Devices, Diagnostic, Educational, Health Services, Lifestyle, Medical Management Strategies, Pharmaceutical, Population Health, Preventative, Psychosocial, Surgical, Other therapeutic procedures.	Not specified	Not specified	15-Jan-09 and 16-Feb-09	2-Mar-09 and 1-April-09	<a href="#">Web Link</a>
Canadian Institutes of Health Research: Team Grant: Physical Activity, Mobility and Health	The objective of the CIHR Team Grant program is to strengthen Canadian health research by supporting teams of talented and experienced researchers conducting high-quality research and providing superior research training and mentorship. The program emphasis is on the production of new knowledge, and the translation of research findings into improvements in the health of Canadians and the Canadian health care system.	5	\$ 2,500,000	30-Jan-09	30-Oct-09	<a href="#">Web Link</a>
Canadian Institutes of Health Research: Undergraduate: Gastroenterology/Nutrition	This initiative will support undergraduates who wish to obtain introductory training in research in the field of Gastroenterology under the leadership of established health researchers in an environment that provides strong mentorship.	16 weeks	\$ 6,000	Not specified	2-Feb-09	<a href="#">Web Link</a>
Canadian National Institute for the Blind (CNIB): Baker Applied Research Fund	The E.A. Baker Applied Research Fund supports research that is focused on the social, educational, cultural, and rehabilitative needs of Canadians living with vision loss, and the application of assistive devices to meet these needs. This program is intended both to advance the career development of new investigators, and to encourage senior researchers to develop programs of applied research.	1	\$ 40,000	Not specified	Dec. 1 of each year	<a href="#">Web Link</a>
Canadian National Institute for the Blind (CNIB): Baker New Researcher Fund	CNIB's Grants and Fellowships Program provides one-year grants to encourage new investigations that may lead to the prevention of vision loss. It is intended to benefit new investigators (within 5 years after Ph.D or M.D.) by giving them experience and results which can assist them in further grant applications and pilot investigations. This fund can also be used to assist experienced researchers who are considering a major or new direction in their work.	1	\$ 40,000	Not specified	Dec 1 of each year	<a href="#">Web Link</a>
Canadian National Institute for the Blind (CNIB):CGCRC Award - Clinical Glaucoma Research Opportunity	CNIB and the Canadian Glaucoma Clinical Research Council (CGCRC) are pleased to announce a new partnership for funding of clinical glaucoma research in Canada.	3	\$ 225,000	Not specified	Oct 31 and May 15 of each year	<a href="#">Web Link</a>

Canadian National Institute for the Blind (CNIB): Hochhausen Research Award	The award was established by Ben and Mary Hochhausen to further their long-time volunteer and financial contribution to CNIB. This international award encourages research in the field of access technology for people living with vision loss.	1	\$ 10,000	Not specified	30-Sept of each year	<a href="#">Web Link</a>
Canadian National Institute for the Blind (CNIB): Tuck MacPhee Award	CNIB's Grants and Fellowships Program provides this award to support researchers in the field of macular degeneration. This competition is open to all researchers; however applicants must be residents of Canada and research must be conducted primarily in Canada.	1	\$ 50,000	Not specified	1-Dec of each year	<a href="#">Web Link</a>
Canadian Nurses Foundation: The TD Aboriginal Nursing Fund <b>new Dec.'09</b>	The TD Aboriginal Nursing Fund will support Aboriginal nurses at the Bachelor, Master's, PhD and Nurse Practitioner levels. The fund will also provide research awards for Aboriginal students and research teams who are conducting studies with the goal of improving health outcomes for Aboriginal Canadians.	Not specified	Not specified	Not specified	Information available Jan. 2009	<a href="#">Web Link</a>
Canadian Occupational Therapy Foundation (COTF): Research Grant	Awarded annually to individual, life or student members of CAOT who have been sponsored by an employer or educational institution to pursue research directly applicable to the practice of client-centered occupational therapy.	1	\$ 5,000	Not specified	28-Feb on annual basis	<a href="#">Web Link</a>
Canadian Occupational Therapy Foundation (COTF): Critical Literature Review Grants	These grants aim to encourage occupational therapy-related research that addresses knowledge or knowledge to action gaps within the range of intrinsic and extrinsic challenges (from biological to environmental) associated with mobility of older Canadians.	1	\$ 10,000	Not specified	28-Feb-09	<a href="#">Web Link</a>
Canadian Pain Society- Small Grants for Local and Regional Initiatives in Pain Education and Organizational Development	The Society offers small grants in support of projects designed to improve pain management or to promote education about pain.	Not specified	\$ 1,250	Not required	anytime - funds allocated quarterly	<a href="#">Web Link</a>
Canadian Tobacco Control Research Initiative Researcher Travel Grant	Researcher Travel Grants are offered to provide opportunities for graduate and post-doctoral students and individuals affiliated with non-governmental organizations/community groups to attend conferences/meetings related to tobacco abuse and nicotine addiction.	N/A	\$ 3,000	Not required	30 days prior to start of meeting	<a href="#">Web Link</a>
Canadian Tobacco Control Research Initiative Student Research Grant	Student Research grants are offered to provide opportunities for graduate and post-doctoral students to undertake tobacco abuse and nicotine addiction research.	1	\$ 10,000	Not required	March 31 June 30 September 30 December 30	<a href="#">Web Link</a>
Canadian Tobacco Control Research Initiative Workshop Grant	For the support of workshops, meetings and other events which aim to build research capacity. 1. To foster links between researchers or between researchers and research end-users within geographical regions or populations in Canada. 2. To build capacity for research using an innovative approach.	N/A	\$ 15,000	Not required	at least 90 days prior to the anticipated workshop or event.	<a href="#">Web Link</a>

Christopher Reeve Paralysis Foundation: Individual Research Grants <b>updated Dec.'08</b>	The goals of the individual research grants program are to (1) encourage promising new investigators to undertake research on regeneration and recovery, particularly with respect to the spinal cord; (2) encourage researchers who are well-established in other areas to transfer their efforts to spinal cord research; and (3) enable researchers with novel ideas to test their ideas and develop pilot data for seeking larger awards from NIH and other funding sources.	2	\$ 150,000	Not specified	15-Jun-09	<a href="#">Web Link</a>
Commission for Case Manager Certification: Research Grant	CCMC believes that because the practice and the job settings of case managers have evolved rapidly over the past two decades, research is needed in order to accurately identify the current state of the field and to document how case management has evolved in response to the changing environment of healthcare.	1	\$ 10,000	Not specified	May 1 on annual basis	<a href="#">Web Link</a>
Crohn's and Colitis Foundation of Canada Conference Sponsorship	The CCFC IBD Research Institute will consider applications for financial support of a limited number of requests to hold scientific meetings relevant to inflammatory bowel disease.	N/A	\$ 5,000	Not required	Not specified	<a href="#">Web Link</a>
Crohn's and Colitis Foundation of Canada: Innovations in IBD Research": A Special Competition	The Crohn's and Colitis Foundation of Canada invites applications for an Innovative Research Grant, to fund novel or innovative approaches to IBD research. This grant is intended to stimulate and support research which may not be encompassed within the boundaries of traditional medical research.	1	\$ 50,000	Not required	March 1st and September 1st annually	<a href="#">Web Link</a>
Elizabeth Glaser Pediatric Aids Foundation: Grants and Awards	These grants provide scientists and scholars with the opportunity and resources to focus on issues critical to pediatric AIDS and to accelerate basic research that is vital in the struggle to end this devastating pandemic.	2 to 5 years, depending on award	\$30,000 to \$682,500 depending on grant/award	Required but no specified date	Not specified	<a href="#">Web Link</a>
THE EJLB FOUNDATION	The EJLB Foundation supports environmental scientific research performed in Canadian universities or affiliated research centres. Grant requests for environmental scientific research projects are to be made by addressing an initial letter of inquiry to The EJLB Foundation providing a brief description of the proposed project and the amount of the grant sought.	Not specified	Not specified	Not required	Ongoing, submit letter of inquiry to The EJLB Foundation	<a href="#">Web Link</a>
Epilepsy Foundation: Targeted Research Initiative for Mood Disorders	The Targeted Research Initiative for Mood Disorders supports research leading to new insights into the diagnosis etiology, complications and treatment of persons with epilepsy and mood disorders.	1	\$ 100,000	Not specified	2-Mar-09	<a href="#">Web Link</a>
Epilepsy Foundation: Targeted Research Initiative for Seniors	The Targeted Research Initiative for Seniors is looking for interested investigators to conduct pilot research in the fundamental knowledge of aging and epilepsy; diagnosis of partial seizures; and epilepsy therapeutics in the elderly.	1	\$ 100,000	Not specified	2-Mar-09	<a href="#">Web Link</a>

Epilepsy Foundation: Targeted Research Initiative for Health Outcomes	This initiative targets an important need for research to understand how different components of health care systems affect outcomes in people with epilepsy.	1	\$ 100,000	Not specified	2-Mar-09	<a href="#">Web Link</a>
Epilepsy Foundation: Targeted Research Initiative for Youths new Dec. '08	This program recognizes the increasing need for epilepsy and seizure research in populations from children through adolescence involving pathophysiology, epidemiology, diagnosis, behavioral manifestations, medication therapy, and quality-of-life issues	1	\$ 100,000	Not specified	2-Mar-09	<a href="#">Web Link</a>
Fondation Savoy Foundation: Research Fellowships	A few grants of \$30,000 will be awarded to scientists or medical specialists (Ph.D. or M.D.) wishing to carry out a full time research project in the field of epilepsy. The Savoy Foundation is the only Canadian organization entirely devoted to fundraising and giving grants and endowments for research in epilepsy.	2	\$ 60,000	Not specified	on-going yearly basis, Jan. 15 deadline	<a href="#">Web Link</a>
Fondation Savoy Foundation: Studentships	Studentships will be awarded to meritorious applicants wishing to acquire training and pursue research in a biomedical discipline, the health sciences or social sciences related to epilepsy.	4 years	\$ 54,000	Not specified	on-going yearly basis, Jan. 15 deadline	<a href="#">Web Link</a>
Foreign Affairs and International Trade Canada: Going Global Science and Technology Fund	The Going Global S&T Program supports activities ("projects") that aim to build on targeted relationships between Canadian researchers and key players in other countries and allow them to proceed with the formal discussions required to initiate collaboration on future international research and development initiatives.	Not specified	minimum \$8000 maximum \$50,000	Not specified	6 weeks in advance of project commencement	<a href="#">Web Link</a>
Foundation for the Future: Future of Humanity Grants new Dec.'09	The Foundation For the Future conducts and funds a Research Grants Program to provide financial support to scholars undertaking research at a macro level that is directly related to better understanding the factors affecting the long-term future of humanity.	Not specified	\$5000 - \$25,000	between Jan.1 and April 30 on annual basis	Upon Invitation	<a href="#">Web Link</a>
Fragile X Research Foundation: (FRAXA):Medical Research Grants And Postdoctoral Fellowships	The purpose of this grant program is to promote research aimed at finding a specific treatment for fragile X syndrome. FRAXA's goal is to bring practical treatment into current medical practice as quickly as possible; therefore, preference will be given to research projects that have a clear practical application and the results of which will be shared with other qualified researchers in a timely fashion.	1	\$30-60,000	Letter of inquiry to be submitted any time	1-Feb of each year	<a href="#">Web Link</a>
Fraser Basin Council: BC Clean Air Research (BC CLEAR) Fund	The BC Clean Air Research (BC CLEAR) Fund promotes excellent research by funding transformative, internationally significant research of strategic importance for the management of air quality in British Columbia.	1	\$ 25,000	Not required	applications will be received and evaluated throughout the year, subject to available funding	<a href="#">Web Link</a>

Gay and Lesbian Medical Association (GLMA): Lesbian Health Fund	LHF's mission is to improve the health of lesbians and their families through investigation and research. Research goals include: Determination of rates and risk factors for cancers and other diseases among lesbians, Issues of access to medical care for lesbians, and Study of mental health concerns of lesbians and their families.	Not specified	\$500 to \$10,000	Not specified	1-May and 1-Oct annually	<a href="#">Web Link</a>
Health Effects Institute: Request for Applications 08-2. Walter A. Rosenblith New Investigator Award	The purpose of this award is to bring new, creative investigators into active research on the health effects of air pollution.	3	Not specified	10-Feb-09	10-Mar-09	<a href="#">Web Link</a>
Heart and Stroke Foundation of Canada: Request for Proposals - Assessing the Impact of the Health Check™ Food Information Program new Dec.'08	The Heart and Stroke Foundation of Canada (HSFC) is issuing this Request for Proposals. The purpose of the initiative is to engage the services of a team of research consultants/contractor(s) to assess the impact of HSFC Health Check™ Food Information Program after 10 years in operation.	1	\$ 150,000	Not specified	15-Jan-09	<a href="#">Web Link</a>
The Heart and Stroke Foundation of Canada: Research Fellowship	The objective is to attract and foster young investigators to initiate and/or continue training in the scientific method and chosen area of the cardiovascular or cerebrovascular fields.	3	Not specified	Not required	annual basis Nov. 1st	<a href="#">Web Link</a>
Heart and Stroke Foundation of Canada: The Visiting Scientist	This program is intended for Canadians to work abroad or at another Canadian institution or for foreign visitors to work at a Canadian institution	3mo to 1yr	\$ 12,000	Not required	annual basis Dec. 15th	<a href="#">Web Link</a>
Heart and Stroke Foundation of Canada: Grants-In-Aid	The Grant-in-Aid (GIA) program supports experimental cardiovascular or cerebrovascular research projects and offers grants for up to one, two, or three years.	1 to 3	Not specified	Not specified	annual basis Sept. 1st	<a href="#">Web Link</a>
Hereditary Disease Foundation Huntington's Disease	The focus of the Hereditary Disease Foundation is on Huntington's disease. Support will be for research projects that will contribute to identifying and understanding the basic defect in Huntington's disease. Areas of interest include trinucleotide expansions, animal models, gene therapy, neurobiology and development of the basal ganglia, cell survival and death, and intercellular signaling in striatal neurons.	1	\$ 50,000	Submit to get application	annual basis Feb. 15, June 15, and Oct. 15	<a href="#">Web Link</a>
International Association for the Study of Pain: Early Career Research Grants Program	The grants are available internationally and are not related to any particular discipline. The committee will give consideration to a balance of all aspects of pain research projects including the clinical, social and basic sciences when considering the awards.	1	\$ 20,000	Not required	30-Jan-09	<a href="#">Web Link</a>
James S. McDonnell Foundation: Collaborative Activity Awards	The Foundation offers Collaborative Activity Awards to initiate interdisciplinary discussions on problems or issues, to help launch interdisciplinary research networks, or to fund communities of researchers/practitioners dedicated to developing new methods, tools, and applications of basic research to applied problems.	Not specified	Varies according to projects scope and needs	Letter of inquiry to be submitted any time	no application deadlines	<a href="#">Web Link</a>

James S. McDonnell Foundation: Research Awards new Dec.'08	21st Century Research Awards are designed to support research projects with a high probability of generating new knowledge and insights. Projects submitted for funding consideration should be at an early, even preliminary stage of development, and should be intended to break new ground or to challenge commonly-held assumptions.	3 to 6	\$ 450,000	Not specified	17-Mar-09	<a href="#">Web Link</a>
Leukemia and Lymphoma Society of Canada (LLSC)	The Leukemia and Lymphoma Society of Canada (LLSC), formerly Leukemia Research Fund of Canada, is a national volunteer organization dedicated to raising funds to support basic and clinical research in the field of leukemia, lymphoma, myeloma, and other blood cancer disorders in Canada.	2	\$ 120,000	Not specified	1-Feb-09	<a href="#">Web Link</a>
Manning Innovation Awards	The Ernest C. Manning Awards Foundation has been recognizing and encouraging innovation in Canada since 1982. By means of a nomination, Canadian resident citizens, who have demonstrated recent innovative talent in developing and successfully marketing a new concept, process or procedure, may be eligible for one of these awards.	N/A	\$100,000 \$25,000 \$10,000	Not specified	Not specified	<a href="#">Web Link</a>
March of Dimes Birth Defects Foundation	The March of Dimes Office of Government Affairs uses data and findings from policy research to inform the foundation's advocacy efforts on behalf of pregnant women, infants, and children. Efforts include sponsoring relevant policy research as well as learning from research efforts funded by others. Requests for proposals (RFPs) from policy researchers are in development on an ongoing basis. Projects considered for funding may involve analysis of existing data, conduct of original surveys, preparation of case studies, or development of a scope of work for a large-scale study.	N/A	\$25,000	continuous	continuous	<a href="#">Web Link</a>
Medical Council of Canada: Fund for Research in Clinical Assessment new Dec.'08	The purpose and priorities of the 2009 competition are the encouragement of innovations in the assessment of clinical competence or performance of students, postgraduate trainees, or practitioners.	2	\$37,500	1-Feb-09	Not specified	<a href="#">Web Link</a>
Medical Council of Canada: Multi-year grant new Dec.'08	The aim is to stimulate research around a general theme of assessment in realistic settings, to develop assessment tools that could be used in actual clinical circumstances related to undergraduate and postgraduate educational programs, as well as the assessment of physicians in practice.	3	\$50,000	1-Feb-09	Not specified	<a href="#">Web Link</a>
Medical Council of Canada: Proposal Writing Assistance Initiative - 2009 new Dec.'08	Many grant applications consist of great ideas but do not stand up to the rigors of peer review. The most common areas of difficulty are experimental design, methodology, and analysis. These grants may be used by a Principle Investigator (PI) to develop and write a research proposal for submission to MCC.	one-time	\$2,000	Not specified	15-Jan-09	<a href="#">Web Link</a>

Medical Library Association (MLA): MLA Research, Development, and Demonstration Project Grants	The purpose of this grant is to provide support for research, development, or demonstration projects that will help to promote excellence in the field of health sciences librarianship and information sciences. The applicant should preferably be an individual member of the association.	1	\$1,000	Not specified	1-Dec of each year	<a href="#">Web Link</a>
Medical Library Association (MLA): HLS/MLA Professional Development Grant	The purpose of the Hospital Libraries Section (HLS)/Medical Library Association (MLA) Professional Development Grant is to encourage participation in professional programs that will aid librarians working in hospitals and other clinical care institutions in developing and acquiring the knowledge and skills delineated in Platform for Change (MLA's Educational Policy Statement) and Using Scientific Evidence to Improve Information Practice (MLA's Research Policy Statement).	Not specified	\$800	Not specified	1-Dec of each year	<a href="#">Web Link</a>
Michael J. Fox Foundation: Clinical Intervention Awards 2009 <b>new Dec.'08</b>	The Michael J. Fox Foundation for Parkinson's Disease (MJFF) announces the launch of the Clinical Intervention Awards 2009 program, an Edmond J. Safra Core Program for PD Research. The goal of the program is to support novel or critical clinical intervention trials of promising therapeutic approaches that can significantly and fundamentally improve treatments for Parkinson's disease (PD).	3	Not specified	12-Mar-09	6-Apr-09	<a href="#">Web Link</a>
Michael J. Fox Foundation: Target Validation 2009 <b>new Dec.'08</b>	The Michael J. Fox Foundation for Parkinson's Research announces the launch of its annual Target Validation for 2009, an Edmond J. Safra Core Program for PD Research, for investigator-initiated applications designed to validate the therapeutic potential of scientific discoveries and to push them one step closer to the clinic.	2	\$250,000	6-Jan-09	Not specified	<a href="#">Web Link</a>
Michael J. Fox Foundation: Novel Approaches to Drug Discovery for Parkinson's Disease 2009 <b>new Dec.'08</b>	The Michael J. Fox Foundation for Parkinson's Disease announces the launch of the Novel Approaches to Drug Discovery for Parkinson's Disease (NADD) program. The goal of the program is to support efforts to convert and further develop promising biological targets into novel disease-modifying therapeutic strategies.	1	Not specified	10-Feb-09	6-Apr-09	<a href="#">Web Link</a>
Michael J. Fox Foundation: Rapid Response Innovation Awards	The Michael J. Fox Foundation for Parkinson's Research (MJFF) announces the launch of the Rapid Response Innovation Awards, a one-of-a-kind rolling application program to support novel Parkinson's disease related research in real-time. The goal of this exciting new program is to rapidly support innovative research focused on the cause of and cure for Parkinson's disease (PD). Postdoctoral fellows and associates are eligible to apply as Principal Investigators.	1	\$75,000	continuous	continuous	<a href="#">Web Link</a>

Multiple Sclerosis Society of Canada: Pilot Grants	The purpose of the Pilot Program is to provide limited short-term support of research related to multiple sclerosis in areas where preliminary data are scant or nonexistent. Research proposals submitted to this program should represent unique or novel ideas with the potential to open significant new avenues of research on MS.	1	\$35,000	continuous	continuous, but submissions are reviewed between April and August of every year	<a href="#">Web Link</a>
National Cancer Institute of Canada: Workshop Program	The intent of the Cancer Workshop Program is to facilitate the sharing of knowledge about developments in various fields of cancer research. One of the principal objectives is to bring together, for a common purpose, individuals of diverse backgrounds who would not normally interact and collaborate. The focus on cancer research should be primary rather than secondary, but the objective is to provide a multi-disciplinary approach to a cancer topic which may be biomedical, clinical, epidemiological or sociological in nature.	N/A	\$ 20,000	Not required	May 1 and Nov.1 on annual basis	<a href="#">Web Link</a>
National Geographic Conservation Trust Grant	The objective of the Conservation Trust is to support conservation activities around the world as they fit within the mission of the National Geographic Society. The trust will fund projects that contribute significantly to the preservation and sustainable use of the Earth's biological, cultural, and historical resources.	Not specified	\$15-20,000	Not specified	Continuous basis	<a href="#">Web Link</a>
National Hemophilia Foundation: Social Work Excellence Fellowship	The Social Work Excellence Fellowship funds a social worker interested in bleeding disorders care while conducting research or a clinical project of relevance and benefit to the bleeding disorders community. A focus on diversity is welcomed.	1	\$ 10,000	23-Feb each year	27-April each year	<a href="#">Web Link</a>
National Institutes of Health (NIH): Brain Imaging Studies of Negative Reinforcement in Humans (R01)	The purpose of this Funding Opportunity Announcement (FOA) is to stimulate a program of clinical neuroscience research on negative reinforcement / avoidance learning.	5	\$ 1,250,000	19-Jan-09	19-Feb-09	<a href="#">Web Link</a>
National Institutes of Health (NIH): CAM Approaches in the Management of HIV Disease and Its Complications (R01)	This FOA solicits applications proposing research on complementary interventions that are frequently used and hypothesized to be effective in the management of HIV disease and the complications associated with antiretroviral therapy (ART).	4	\$ 800,000	Not specified	27-Mar-09	<a href="#">Web Link</a>
National Institutes of Health (NIH): Research on Emergency Medical Services for Children (R01)	This multi-agency program Funding Opportunity Announcement (FOA) is designed to improve the quality and quantity of research related to emergency medical services for children (EMSC), with the goal of reducing morbidity and mortality in children through improved care delivery.	5	\$ 2,500,000	December 15, 2008, August 19, 2009, August 15, 2010	January 15, 2009, September 19, 2009, September 15, 2010	<a href="#">Web Link</a>

National Institutes of Health (NIH): Translational Research in Muscular Dystrophy (U01)	The National Institute of Neurological Disorders and Stroke and the National Institute of Arthritis and Musculoskeletal and Skin Diseases solicit applications for translational research projects in muscular dystrophy. Several emerging pathways to treatment of muscular dystrophy show promise, ranging from palliative therapies that can markedly delay onset or progression of the disease to genetic or stem cell approaches that may reverse or eliminate the condition. The objective of this initiative is to encourage the pursuit of a broad range of translational research strategies for therapeutic development in muscular dystrophy.	Not specified	Not specified	Not specified	7-Jan-09	<a href="#">Web Link</a>
National Institutes of Health (NIH): Understanding and Preventing Brain Tumor Dispersal (R01)	The goal of this program announcement is to promote studies that 1) identify the properties of brain tumor cells that cause them to migrate; 2) determine how interaction of tumor cells with normal brain elements affects migration; and 3) translate understanding of these parameters into interventions that target invading tumor cells. Interdisciplinary studies that apply new concepts and methodologies from developmental neuroscience, genomics, precursor cell biology and other related fields are particularly encouraged.	Not specified	Not specified	5-Jan-09	5-Feb-09	<a href="#">Web Link</a>
Natural Sciences and Engineering Research Council Research Network Grants (RNG)	Research Network Grants fund large-scale, complex research programs that involve multi-sectorial collaborations on a common research topic. The topic to be investigated can be of local concern, requiring a focused local network, or of regional or national importance, requiring a larger, more complex network.	5	Not specified	Required	Anytime	<a href="#">Web Link</a>
Natural Sciences and Engineering Research Council Special Research Opportunity (SRO) Program	Special Research Opportunity (SRO) grants enable researchers to pursue new and emerging research opportunities at the time they become apparent, or investigate and develop potential new collaborations necessary to respond to these national and international opportunities. What distinguishes a special research opportunity is the urgency and timeliness of the opportunity.	up to 3	Not specified	Required	Not specified	<a href="#">Web Link</a>
NEARBC: Seed Grant Opportunity	These seed funds may be utilized for: research team development which would link academic and/or community based researchers to prepare an application for research funding; or conducting exploratory work to test research questions/methods or collect pilot data to support an application for research funding.	N/A	VARIABLES	Not required	Ongoing	<a href="#">Web Link</a>
Physicians' Services Incorporated Foundation (PSIF) : Community Based Research	Physicians practising in a community setting may apply for a grant to assist them in undertaking a review of their practice patterns that would enhance the effectiveness of practice and patient care in their own clinic, hospital, or region.	1	\$ 5,600	Not specified	Not specified	<a href="#">Web Link</a>

Physicians' Services Incorporated Foundation: Grants in Aid of Health Research	The Physicians' Services Incorporated Foundation (PSIF) will consider supporting projects of a special nature within the health care system, such as preventive medicine, care of the elderly, communications within the system, underserved regions, and ways of enhancing the effectiveness of medical practice.	2	\$ 170,000	Not specified	Not specified	<a href="#">Web Link</a>
Physiotherapy Foundation of Canada/CIHR Institute of Aging Research Grants in Mobility in Aging	The Physiotherapy Foundation of Canada and the CIHR Institute of Aging are pleased to relaunch their joint Research Grants Program in Mobility in Aging. The grants aim to encourage new investigators to pursue physiotherapy-related research that addresses knowledge or knowledge to action gaps within the range of intrinsic and extrinsic challenges (from biological to environmental) associated with mobility of older Canadians.	1	\$ 5,000	Not specified	13-Feb-09	<a href="#">Web Link</a>
Physiotherapy Foundation of Canada/ OrthoCanada Research Award in Neck and Back Rehabilitation and Core Stability	The OrthoCanada Research Award in Neck and Back Rehabilitation and Core Stability was established in 2009 by OrthoCanada to encourage development of treatments related to back and neck rehabilitation and core stability. Awards are made for up to \$5,000 each. The award is for seed funding for mainly pilot or feasibility projects.	1	\$ 5,000	Not specified	13-Feb-09	<a href="#">Web Link</a>
Physiotherapy Foundation of Canada/PABC Research Grant for Physiotherapy Research in B.C.	The Physiotherapy Association of British Columbia (PABC) has established the PABC Research Grant for Physiotherapy Research in B.C. in order to build awareness about the importance of research in building evidence-based practices. The award is meant to provide seed funding for pilot or feasibility physiotherapy research projects conducted in British Columbia. The PABC Research Grant is restricted to PABC members in good standing.	1	\$ 5,000	Not specified	13-Feb-09	<a href="#">Web Link</a>
Physiotherapy Foundation of Canada/NSD-PFC Award for Physiotherapy Research in Neurosciences	The NSD-PFC Award for Physiotherapy Research in the Neurosciences was established in 2006 as a result of a joint effort between the Neurosciences Division of the Canadian Physiotherapy Association and the Physiotherapy Foundation of Canada. This is the first year an award will be made to support physiotherapy research in the neurosciences.	1	\$ 3,000	Not specified	13-Feb-09	<a href="#">Web Link</a>
Physiotherapy Foundation of Canada/The Paediatric Division Physiotherapy Research Grant Related to Child and Adolescent Health Issues	The purpose of the grant is to encourage research initiatives that will develop physiotherapy interventions in the treatment of child and adolescent issues related to neonatal care, neurology, neurosurgery, orthopaedics, cardiorespiratory, rheumatology, oncology, pain clinics and amputees.	1	\$ 2,000	Not specified	13-Feb-09	<a href="#">Web Link</a>
Physiotherapy Foundation of Canada: PFC Research Grants <b>new Dec.'08</b>	Funds are used to provide research grants that support the health, mobility and well-being of Canadians: to encourage the development of new technology and treatment methods; develop methods for the prevention and early recognition of physical disabilities; evaluate the effectiveness of new and existing treatment methods; and encourage epidemiological studies on the incidence and prevalence of physical disabilities.	1	\$ 2,000	Not specified	13-Feb-09	<a href="#">Web Link</a>

PrioNet Canada: Strategic Programs	PrioNet aims to develop strategies to mitigate, and ultimately eradicate, prion diseases. PrioNet Canada enables multidisciplinary research, provides training and network opportunities, facilitates the transfer of research results to commercial uses, and promotes knowledge exchange.	1 to 2	\$100,000 - \$200,000	Ongoing	Ongoing	<a href="#">Web Link</a>
Sandler Program for Asthma Research	We are looking for highly original thinking from investigators willing to step away from their current areas of research and tackle the riddle of asthma. We want you to translate your know-how and skills into asthma research. Innovation and risk are strongly encouraged.	3	\$150-250,000	Not specified	11-Feb-09	<a href="#">Web Link</a>
Savoy Foundation Epilepsy	Research grants will be available to clinicians and/or established scientists working on epilepsy or related subjects.	1	\$ 25,000	Not specified	15-Jan of each year	<a href="#">Web Link</a>
Scottish Rite Charitable Foundation of Canada (SRCFC): Major Research Grants - Supporting Biomedical Research Into Intellectual Impairment	The Scottish Rite Charitable Foundation of Canada (SRCFC) offers grants to support biomedical research into intellectual impairment focused on the following: a) The causes and eventual cure of intellectual impairment, such as Autism and Down syndrome, especially as it affects children b) The causes and eventual cure of Alzheimer's disease Research into other forms of intellectual impairment may also be considered.	3	\$ 105,000	Not specified	April 30 of each year	<a href="#">Web Link</a>
Sick Kids Foundation: Research Grants in Complementary and Alternative Health Care and Paediatrics	As part of the Foundation's funding of the Children and Youth Home Care Network (CYHN), support is offered for conferences, workshops or symposia. The purpose of funding conference grants is to support events which are relevant to home and community care for children, youth and families.	2	\$130,000	Not specified	15-May on annual basis	<a href="#">Web Link</a>
Sick Kids Foundation: Research Cross-Training Awards in Complementary and Alternative Health Care and Paediatrics	A request for cross-training proposals which must have as a goal to increase research capacity in paediatric complementary and alternative therapies in Canada.	Not specified	Not specified	Not specified	11-Sept on annual basis	<a href="#">Web Link</a>
Sick Kids Foundation: Home Care Research Grants	Research proposals to support research projects related to home and community care for children (including infants, children and youth up to the age of 18 years) and their families.	2	\$130,000	Not specified	6-April on annual basis	<a href="#">Web Link</a>
Sick Kids Foundation: Home Care Conference Grants	As part of the Foundation's funding of the Children and Youth Home Care Network (CYHN), support is offered for conferences, workshops or symposia. The purpose of funding conference grants is to support events which are relevant to home and community care for children, youth and families.	N/A	\$ 5,000	Not required	3 months prior to event	<a href="#">Web Link</a>

Social Sciences and Humanities Research Council: Community-University Research Alliances (CURA)	The purpose of the program is to support the creation of alliances between community organizations and postsecondary institutions which, through a process of ongoing collaboration and mutual learning, will foster innovative research, training and the creation of new knowledge in areas of importance for the social, cultural or economic development of Canadian communities.	5	\$ 1,000,000	29-Mar-09	By Invitation	<a href="#">Web Link</a>
Social Sciences and Humanities Research Council Canadian Initiative on Social Statistics (CISS) Access to Research Data Centres	Research Data Centres (RDC) provide researchers with access to confidential social statistics data collected by Statistics Canada.	Not specified	no monetary value - access to data only	Not required	Applications may be submitted at any time	<a href="#">Web Link</a>
Spina Bifida and Hydrocephalus Association of Canada (SBHAC): Spina Bifida and Hydrocephalus Research Grants	The Association has an established Research program that awards funds annually to allied health care professionals, psycho-social or educational professionals and medical researchers to improve the quality of life of all individuals with spina bifida selected or hydrocephalus and their families through awareness, education, Research and advocacy, and to reduce the incidence of neural tube defects.	1	\$ 9,000	Not specified	Feb.14th of every year	<a href="#">Web Link</a>
Strategic Program for Asthma Research	We are looking for highly original thinking from investigators willing to step away from their current areas of research and tackle the riddle of asthma. We want you to translate your know-how and skills into asthma research. Innovation and risk are strongly encouraged.	3	\$150-250,000	Not specified	11-Feb-09	<a href="#">Web Link</a>
The Multiple Sclerosis Society of Canada	The Multiple Sclerosis Society of Canada is the single largest funder of MS research in Canada. Of the research projects currently funded, about half are targeted at myelin biology and repair. Particular attention is focussed on finding ways to stimulate central nervous system cells to produce new myelin. Other significant areas of MS research are genetic susceptibility, immunology, MRI studies, health research and treatment effects.	No specified	Not specified	Not specified	annual basis Oct. 1st	<a href="#">Web Link</a>
The Stanley Medical Research Institute: Research Grants Program	The research grants program will focus on four main project areas and provide for three levels of funding including preclinical aspects of drug development, biomarkers, infectious disease and mental illness, and neuropathology.	1 to 3	\$75,000 to \$450,000	Not specified	annual basis March 1st	<a href="#">Web Link</a>
Vancouver Foundation and B.C. Medical Services Foundation	The British Columbia Medical Services Foundation (BCMSF), established under the auspices of Vancouver Foundation, supports health-related research in both academic and community settings in British Columbia and encourages interdisciplinary and collaborative research. BCMSF actively promotes health education, explores solutions to health care issues, and advances study in the health sciences.	5	\$ 50,000	Not specified	March 30 and Oct. 5 of each year	<a href="#">Web Link</a>

Victoria Foundation: Environment Fund	The Environment Fund provides grants made to support environmental programs that benefit residents of the County of Victoria (the Capital Regional District to Mill Bay and the Southern Gulf Islands). Grant funding supports organizations with programming in three priority areas: Air & Water Quality, Ecosystem Awareness and Protection, and Urban Sprawl & Sustainable Communities.	Not specified	Varies from \$1000 to over \$20,000	On-going basis	On-going basis	<a href="#">Web Link</a>
Victoria Foundation: Expressions of Interest	In our on-going effort of connecting people who care with causes that matter across the broad spectrum of our community, the Victoria Foundation invites and accepts expressions of interest from charitable organizations to support both pro-active and responsive grant making on a continuous intake basis.	1	Small (\$1,000-\$5,000) Medium (\$5,000-\$20,000) and Large Grants (over \$20,000)	Continuous- 3 months prior to processing request	Continuous basis	<a href="#">Web Link</a>
Woodward's Foundation	The focus of the Mr. and Mrs. P.A. Woodward's Foundation is in the health field. The foundation supports projects that primarily affect the people of British Columbia where there is clear indication of the health benefit anticipated. Grants are made to organizations with a charitable gift registration number from the Department of National Revenue of Canada.	1	Unspecified	Not required	15-Jan-09 and 15 July-09 on annual basis	<a href="#">Web Link</a>
WorkSafe BC: Focus on Tomorrow – Research at Work <b>new Dec. '08</b>	Research at Work offers two types of grants — operating grants and development grants. An operating grant is for fully developed research proposals. Operating grants do not have a funding cap per project, and may be awarded for a maximum duration of two years. Development grants provide funding of up to \$30,000 per project to allow investigators to pursue research projects, for a maximum duration of one year.	1 to 2	\$30,000 and up	12-Jan-09	16-Feb-09	<a href="#">Web Link</a>
WorkSafe BC: Focus on Tomorrow – Innovation at Work	Under its category INNOVATION AT WORK, grants are made available to a broader group of applicants (including professional researchers, workplace parties, unions, employer organizations, and educators) and are intended to support research for the development of new knowledge and/or practical problem-solving at the workplace level.	1	\$ 50,000	12-Jan-09	9-Feb-09	<a href="#">Web Link</a>
