at St. Joseph's General Hospital

The Views – Residential Care Unit

Residential care at The Views at St. Joseph's sits on the oceanfront with a spectacular view of the Beaufort Strait and the Beaufort Mountain Range across the water. The property is home to many eagles; hence our units are called Eagleview (75 beds) and Oceanview (50 beds).

Building amenities include a wheelchair accessible garden, gazebo, outdoor decks overlooking the ocean, large and small lounge areas, an art studio and much more.

The Comox Valley Community

The Comox Valley is located in the northern region of Vancouver Island, less than a three hours' drive from Victoria. Situated between the mountains and ocean, the Comox Valley is an outdoor enthusiast's paradise. Skiing, hiking, biking, kayaking, diving, fishing and boating keep Comox Valley residents busy throughout the year.

Affordable housing and the close-knit community attracts families from bigger cities for a more laidback lifestyle.
